

YOU'RE INVITED!

40 YEARS OF INFLUENCE

Over the course of 40 years, Richard Pietruska (rpmart.com) has been steadily influencing the global automotive design industry through his deep commitment to educating talented young designers at Art Center College of Design, where he himself graduated and earned his Bachelor's and Master's degree.

In celebration of this incredible accomplishment and impressive legacy, you are warmly invited to join Richard, former students, fellow instructors and the Art Center community for a reception in Richard's honor. We hope to see you there.

To ensure Richard's influence on talented young designers continues into the future, **Art Center is accepting contributions to create a scholarship in Richard's name.** You can make your gift online at <https://www.artcenter.edu/donation?Pietruska> or by mailing a check with Pietruska Scholarship on the memo line.

Richard has asked that former students send in images of work from his class to show during the event. You can also create a page for the tribute book that will be presented to Richard by drawing a sketch or writing a note on an 8 ½ x 11 piece of paper and mailing it to Jay Sanders at Art Center or emailing it to jay.sanders@artcenter.edu. Just remember, "No ugly cars!"
