

Stewart Reed

Stewart Reed is the Chair of the Transportation Design Department at Art Center College of Design in Pasadena, CA. A graduate of the College, he has had a distinguished 35-year career in transportation design. As principal of Stewart Reed Design, he consults in the manufacturing industry on both automotive and consumer products. Currently, he is providing coachwork design for a historically significant Bugatti for the Mullen Automotive Museum, and design support for major auto manufacturers. Career achievements include a special-mission military vehicle for Lockheed and the spectacular Cunningham C7 GT coupe for Bob Lutz and Briggs Cunningham III. He has served as Vice President of Design for Prince Corporation (now Johnson Controls) and was chief designer of Toyota's Caltex Design Research studio in Newport Beach, when his four-passenger FXV concept vehicle successfully debuted at the Tokyo Motor Show. At Chrysler Corporation's advanced design department, he developed pre-production new vehicle categories.
